### CERTIFICATE OF TRANSMISSION/MAILING

I hereby certify that this correspondence is being facsimile transmitted to the USPTO or deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on the date shown below:

Signature	<i>John M. Adams</i>		
Typed or printed name	John M. Adams	Date	February 2, 2007

This collection of information is required by 37 CFR 1.5. The information is required to obtain or retain a benefit by the public which is to file (and by the USPTO to process) an application. Confidentiality is governed by 35 U.S.C. 122 and 37 CFR 1.11 and 1.14. This collection is estimated to 2 hours to complete, including gathering, preparing, and submitting the completed application form to the USPTO. Time will vary depending upon the individual case. Any comments on the amount of time you require to complete this form and/or suggestions for reducing this burden, should be sent to the Chief Information Officer, U.S. Patent and Trademark Office, U.S. Department of Commerce, P.O. Box 1450, Alexandria, VA 22313-1450. DO NOT SEND FEES OR COMPLETED FORMS TO THIS ADDRESS. SEND TO: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450.

If you need assistance in completing the form, call 1-800-PTO-9199 and select option 2.

PATENT

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Examiner: Jose V. Chen  
Group Art Unit: 3637  
Application No.: 10/798,932  
Filed: March 11, 2004  
Applicant: Scott Arthur William Muirhead  
Title: THERMOFORMED PLATFORM

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. 1.97

Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir:

Please enter the enclosed Information Disclosure Statement in the file of the above-identified application.

REMARKS

The instant application is a continuation of U.S. Patent application Serial No. 09/803,681, filed on March 12, 2001, now U.S. Patent No. 6,718,888, issued on April 13, 2004. U.S. Patent application Serial No. 09/803,681 claims the benefit of U.S. Provisional Application No. 60/196,127, filed on Apr. 11, 2000.

The following references were cited by the examiner in prior application Serial No. 09/803,681. As understood, under 37 C.F.R. 1.98, copies of the following patents are not required to

be provided as they were made of record in the prior application  
Serial No. 09/803,681.

### Foreign Patent Documents

DE 10024421      Germany

### Publications

Brindley, Chaille, "Going Up In Smoke", Industrial Reporting, Inc., October 1, 2001.

Catastrophic Fire Prevention Task Force, Progress Report on Appropriate Use of Plastic Pallets, undated publication, p. 1-2.

Electronics Industry Pallet Specification Draft Updated September 6, 2001, p. 8.

English language version of the abstract for German Patent Document No. DE10024421 downloaded from [www.espacenet.com](http://www.espacenet.com) on February 2, 2007.

Witt, Clyde E., "Jumping Through Plastic Hoops of Fire", Material Handling Management, October 2002.

The relevance of the above-identified patents and publications is discussed below.

U.S. Patent No. 5,687,532 discloses an intumescent filler to fill void in extruded door frames.

U.S. Patent No. 6,184,269 discloses a halogenated intumescent polymer.

U.S. Patent No. 6,784,234 and U.S. Patent Publication No. 2005/0004281 disclose injection molded pallets that pass UL 2335 using GE engineering grade materials.

U.S. Patent Publication No. 2006/0236903 discloses a

polyolefin containing between 5%-20% intumescent graphite.

German Patent Document No. DE10024421 discloses a mixture that includes: (a) a copolymer of ethylene, vinyl acetate and optionally other monomer(s), with a vinyl acetate content of 40-85 wt.%; (b) acidic or neutralized expandable graphite; (c) mineral filler(s); and (d) optional additives.

The Brindley publication states that plastic has 2.5 to 3 times the potential heat energy of wood. The publication also indicates that plastic can cause a bigger fire than wood and that plastic pallets require more fire protection than wood.

The Catastrophic Fire Prevention Task Force discloses that plastic pallets are made from highly-flammable polyolefin plastics. The publication also quotes a materials handling industry publication that states "[l]iterally, the hottest issue for plastic pallet manufacturers has become fire safety."

The Electronics Industry Pallet Specification Draft publication discloses that wooden pallet manufacturers should avoid the use of halogenated materials.

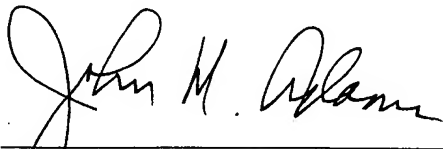

The Witt publication states quotes an UL representative as stating that buying a pallet made of fire retardant material is not the same as buying a fire-retardant pallet.

Applicant submits that there is no fee associated with the filing of the instant Information Disclosure Statement, as it was filed before the mailing of the first Office action after the filing of a request for continued examination. See 37 C.F.R. § 1.97(b) (4).

It is submitted that the above-enumerated references,

taken singly or in any combination, do not disclose or suggest the elements as defined by Applicant's claims 11-27. Accordingly, allowance of claims 11-27 over the above-identified references is respectfully requested.

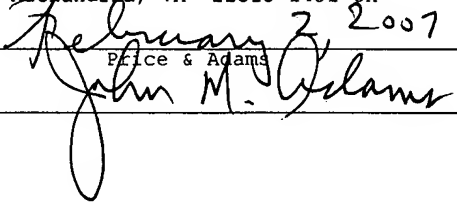

Respectfully submitted,
